

# **Meridian Clearing Services Ltd - Business Plan 2026**

## **1. Executive Summary**

Meridian Clearing Services Ltd ('Meridian') seeks authorisation to operate payment clearing and custody infrastructure within the zone. The company was incorporated in 2021 and currently employs 45 staff across two offices.

Meridian processes an estimated EUR 480 million in annualised settlement volume on behalf of 34 institutional clients. The company intends to expand into digital asset custody during 2026 subject to authorisation.

## **2. Corporate Structure and Ownership**

Meridian is a wholly owned subsidiary of Meridian Holdings BV, incorporated in the Netherlands. Meridian Holdings BV is in turn majority owned by Castellán Partners LP, a limited partnership registered in a jurisdiction the company has not disclosed in this document.

The board comprises four directors. The Chief Executive Officer also holds the role of Chief Risk Officer on an interim basis and chairs the risk committee.

No internal audit function currently exists. The company intends to establish one within eighteen months of authorisation.

### **3. Services and Activities**

Core services are payment clearing, settlement netting and client money custody. Settlement runs three times daily against a single correspondent bank.

Meridian outsources its core ledger platform to Halcyon Systems GmbH under a master services agreement dated March 2023. Halcyon in turn hosts the platform on a public cloud provider. Meridian holds no direct contractual relationship with that provider.

The Halcyon agreement does not contain a right of audit clause. No exit plan has been prepared for the ledger platform.

## **4. Capital and Funding**

Own funds as at 31 December 2025 were EUR 6.2 million against an estimated regulatory requirement of EUR 5.8 million. The company recorded a loss of EUR 1.1 million in the 2025 financial year.

Funding for 2026 is expected from a shareholder loan facility from Meridian Holdings BV. The facility has been discussed but not executed.

Financial statements for 2025 have been prepared by management and have not been audited. The company last obtained an audit opinion for the 2023 financial year.

## **5. Technology and Operations**

The platform maintains 99.7 per cent availability measured over the 2025 calendar year. Two unplanned outages occurred, of 40 minutes and 3 hours.

Client data is encrypted in transit. Encryption at rest is described as planned for the second half of 2026.

Access to production systems is granted through a central directory. Multi-factor authentication is enforced for administrative accounts.

## **6. Compliance**

Meridian maintains an anti-money-laundering policy which is reviewed annually. Customer due diligence is performed at onboarding by the client services team.

The company has not yet appointed a dedicated money laundering reporting officer. Compliance responsibilities currently sit with the Head of Operations.
